DURACELL POWERMAT

Wireless charging unit

Hotspot

The smart easy way to keep your mobile devices charged.

A Powermat device uses resonant inductive coupling, this is a near field wireless transmission of electrical energy between two coils that are tuned to resonate at the same frequency.

Powermat is an inductive energy transfer model to wirelessly charge smart-phones and other devices.

Part Number	Price	
263196	£150.00	€172.50

NB: Requires Duracell Powermat wireless case - see below

Powermat Cases

Duracell Powermat Wireless Cases not only protect your phone, they let you charge on any Powermat charging surface at home, at work or public charging spots.

Part Number	Price	
263206	£25.00	€28.75
