RANGE INTRODUCTION

The Infinity collection of vinyl wrapped doors and accessories can be manufactured to meet your exact requirements. All designs are available in non-standard sizes, ensuring complete continuity throughout your kitchen, bedroom or bathroom. A superb selection of high quality accessories complete the range. All of the products in the Infinity collection are manufactured to the highest industry standards, using the finest raw materials which are then rigorously inspected prior to delivery. The result is that you get the design that you want, configured to fit your home and your lifestyle. The possibilities are endless.

DeNovo by Ney Ltd is a range of acrylic edged doors and accessories. The range consists of fourteen stunning high gloss acrylic finishes and two edging options. As with all the Ney Door Collection ranges, the DeNovo range is made-to-measure to suit your requirements, all doors are available in any colour and any size. An essential selection of matching accessories including 19mm thick end panels or 38mm thick block gables are also available to complete a sleek, ultra modern appearance.

ORDERING INFORMATION

Terms and Conditions of Sale

To enable us to process your orders efficiently all orders must be placed in writing by fax or e-mail. We cannot accept verbal orders. Copies of our order forms can be found on pages 34 and 35 within this guide which can be photocopied for use or if you would like us to send you some please contact us.

On receipt of an order, we will send an order acknowledgement detailing the complete order together with a despatch date. Despatch dates are dependant on proforma orders being paid with order and credit accounts being in order.

Please be aware that any order needing to be amended or cancelled after the 24 hour period will be liable for payment in full.

Please check this acknowledgement carefully and contact us within 24 hours if there are any corrections required, otherwise the order will be processed and put into production.

We endeavour to produce and despatch orders to a 10 day lead time.

We cannot be held responsible for incorrect ordering. Goods supplied correctly to order cannot be returned for credit.

Deliveries

Most deliveries are made by carrier. We know packages delivered by carrier can be subject to mis-handling, so in order to protect our customers and ourselves, on receipt of goods please check immediately. If there is any damage sign the docket accordingly and notify us immediately.

Claims for shortages or goods damaged in transit must be notified in writing within 3 working days of receipt of goods.

Claims for non-delivery must be notified in writing within 7 days of receipt of invoice.

Delivery Charges

England/Wales

Small orders up to the value of £100 will incur a carriage charge of £13.50

Orders of the value between £101 and £200 (within 50miles of Ney Ltd) will incur a charge of £25

Orders of the value between £101 and £250 (over 50 miles of Ney Ltd) will incur a charge of £25

Deliveries within 50 miles of Ney Ltd and with an order value over £200 - free of charge

Deliveries over 50 miles from Ney Ltd and with an order value over £250 - free of charge

Scotland

Small orders will be charged as per standard carrier charges

Orders below £450.00 in value will incur a charge of £45.00

Orders over £450.00 in value - free of charge

Scotland Highlands

Small orders will be charged as per standard carrier charges

Orders below £650.00 in value will incur a charge of £45.00

Orders over £650 in value - free of charge

Payments

All prices quoted are subject to VAT.

All goods remain the property of Ney Limited until they have been paid in full.

25mm board is supplied with Kronospan K101 white backing only. Steel backing is Pfleiderer F8110. Please also note that although our steel MDF has a textured appearance this is not considered as grain and therefore will not be treated as directional throughout an order. The MFC decors listed are the "best match" as per information from our suppliers.

Note that these are recommendations only and you are advised to check and compare our swatches with colour samples from your supplier before ordering cabinet material. We will accept no liability for claims arising from apparent variations in colour or effect between cabinets and doors.

FRAME CLASSIC & SHAKER DESIGNS

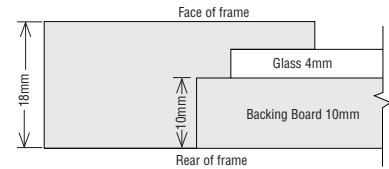

BEDROOM SIZES - OVER 1700MM

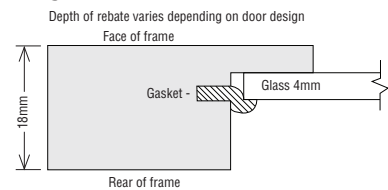

KITCHEN SIZES - UP TO 1700MM

SOLID BACK FRAME REBATE

STANDARD FRAME REBATE

GUIDELINES FOR ORDERING FRAMES

All frames are supplied unglazed and are manufactured with a rebate and groove to accept 4mm or 5mm glass to be held in place with a rubber gasket which is included. Open top and bottom frames are limited to designs which would normally contain a centre rail. Georgian frames over 1700mm in height are supplied as open top only. Other feature frames are available as shown and should be ordered as per description given.

GUIDELINES FOR CALCULATING FRAME REBATE

The sketch shows a 715x495 Modern Slab Plain Frame rebate.

Frame Stile (A) = 80mm
Rebated Stile (B) = 68mm

To calculate the height of the rebate:

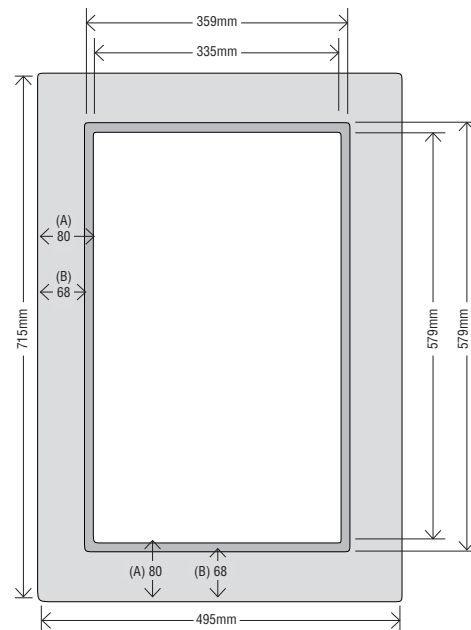

Height – (2x Rebated Stile) = Rebate Height
715 – (2x68) = 579

To calculate the width of the rebate:

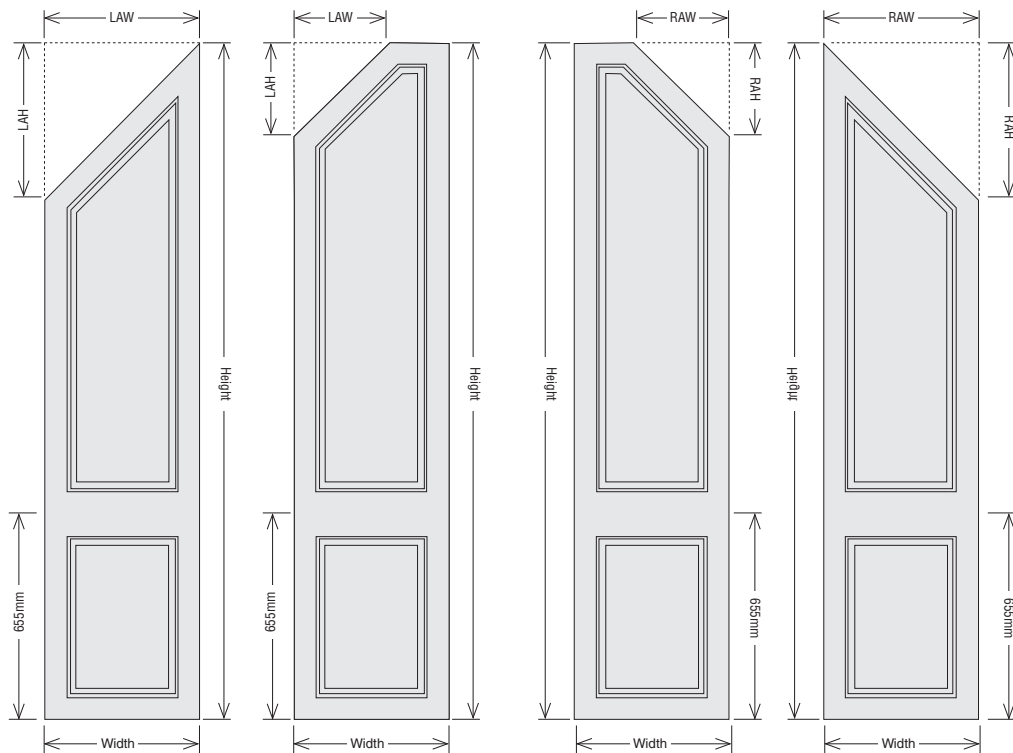

Width – (2x Rebated Stile) = Rebate Width
495 – (2x68) = 359

Rebate size for a 715x495 Modern Slab Frame is 579x359.

It is recommended to order the glass a few millimetres smaller than the rebate size.

GUIDELINES FOR ORDERING ANGLED DOORS

Angled doors should be ordered by supplying the full height and width of the door along with the right or left angle heights and widths as shown. The mid rail position, where applicable, will be at 655mm from the bottom of the door to the centre of the rail unless otherwise requested. A separate drawing must be submitted. A line drawing giving an indication of the final door or doors will be sent to you for approval, this must be checked for accuracy then signed and returned prior to production.

EXTERNAL CURVED CORNER CABINET SPECIFICATION

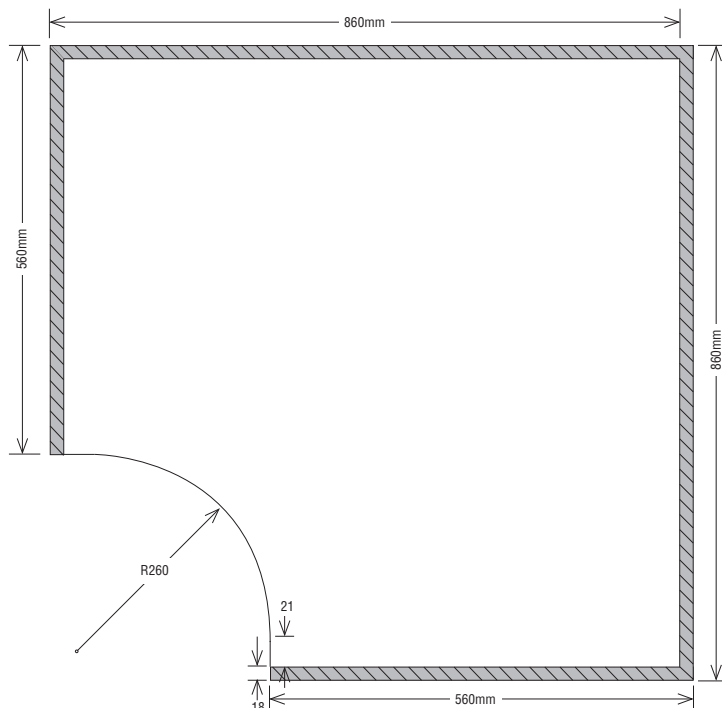

GUIDELINES FOR ORDERING CURVED DOORS

Curved doors and accessories are available with Steel or Ivory backing only.
Curved doors are available in Modern Slab or Siskin Shaker designs only.
Curved doors can be supplied with horizontal grain up to 715mm high and will incur a further 10% charge.

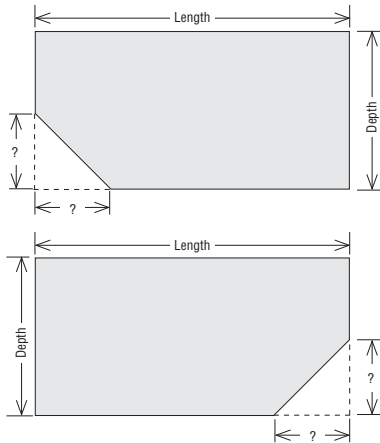

Jigs for cabinets can be supplied on request.

INTERNAL CURVED CORNER CABINET SPECIFICATION

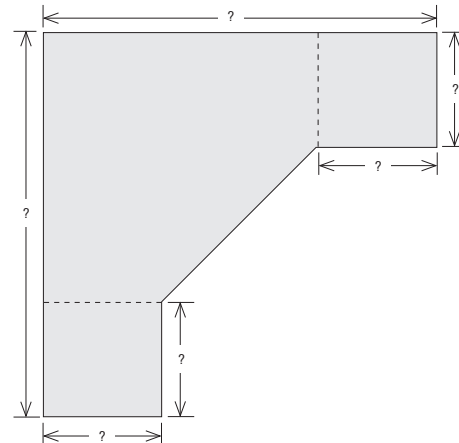

ACCESSORIES PANELS

16) ANGLED PANELS

GUIDELINES FOR ANGLED PANELS

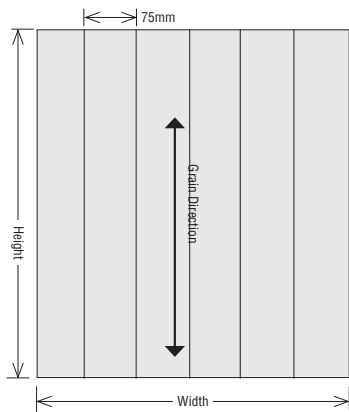

A detailed drawing must accompany any order for angled or corner panels giving as much information as possible. Please include all dimensions as shown on the illustrations paying particular attention to the measurements indicated with question marks (?). Always use the terms length and depth when ordering as this will prevent confusion over grain direction which will always be produced to match the direction of the length dimension. State clearly if 18mm (matching back if available) or 25mm (white only) is required and clearly identify any edges which are to be profiled and which profile is required, if not accompanied by a door order.

GUIDELINES FOR CORNER PANELS

For unusual shaped panels it is advisable to send us a sketch with as much detail as possible. We will then supply you with a technical drawing which will give full details of how the item will be manufactured.

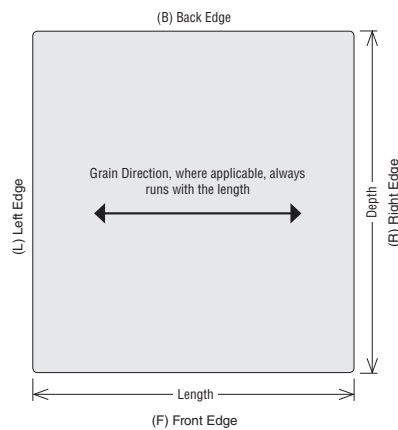

17) T&G PANELS

GUIDELINES FOR T&G PANELS

T&G panels can be produced with one long edge moulded A-F and are manufactured with single grooves which are 75mm centre to centre. The height dimension will represent both the direction of the T & G effect and the grain direction where applicable. The usually accepted maximum size available is 2440mm x 800mm. If you require a wider panel or a grain direction which is not accommodated by this size we can manufacture separate components where the joint will coincide with a groove which, while not invisible, will give the effect of a continuous panel. Panels with twin grooves can be manufactured to order, please contact the sales office for further information.

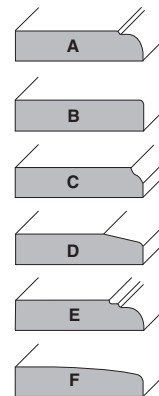

18) MOULDED PANELS

GUIDELINES FOR MOULDED PANELS

The length dimension for any plain or moulded panel will also represent the grain direction where applicable. Please indicate clearly which edges are required with profile by ticking the appropriate box or boxes on the Infinity Collection order form alternatively supply a detailed drawing. 25mm panels are available with white back only.

PANEL PROFILES

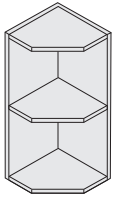

GUIDELINES FOR PANEL PROFILES

These illustrations represent the different edge profiles for the various design options as shown in the Door Finder. Worktops will be supplied with an outside profile to match the door design ordered. If a different profile is required or if purchasing separately from a door order please use the appropriate letter to indicate the edge profile required.

ACCESSORIES CONTINUED

19) WALL SHELF UNITS

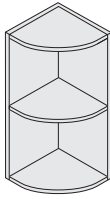

Supplied unassembled

COMPONENT LIST
 3 x Shelves 280mm x 280mm
 1 x Back Panel 720/900mm x 300mm
 1 x Side panel 720/900mm x 282mm

20) CURVED CORNER UNIT

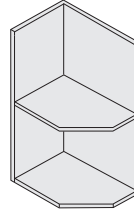

Supplied unassembled

COMPONENT LIST
 3 x Shelves 280mm x 280mm
 1 x Back Panel 720/900mm x 300mm
 1 x Side panel 720/900mm x 282mm

21) BASE SHELF UNITS

Supplied unassembled

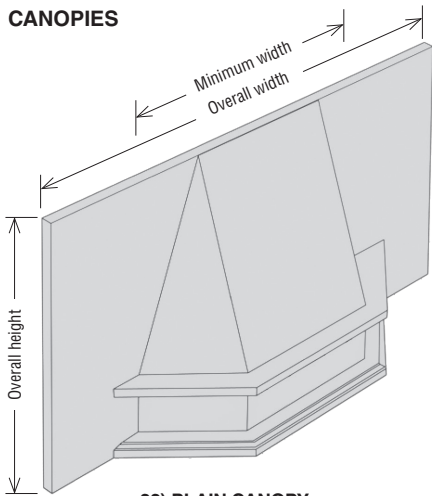

COMPONENT LIST
 2 x shelves 550mm x 280mm
 (specify left or right hand).
 1 x Back Panel 720/900 x 570mm
 1 x Side panel 720/900mm x 282mm

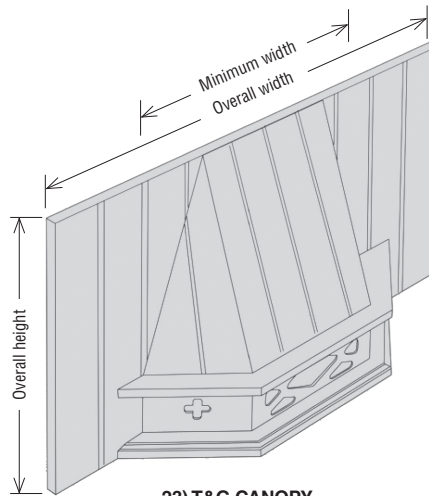

GUIDELINES FOR SHELF UNITS

If ordering non-standard base or wall shelf units be sure to supply full details as right or left handed units will require specific attention with the production of the individual components.

CANOPIES

22) PLAIN CANOPY

23) T&G CANOPY

GUIDELINES FOR CANOPIES

*Overall width is the complete width of the canopy as supplied from the factory.

**Minimum width is the smallest width that the canopy can be cut down by cutting the backing panel.

The Plain Canopy can be supplied with or without detail on the fretwork.

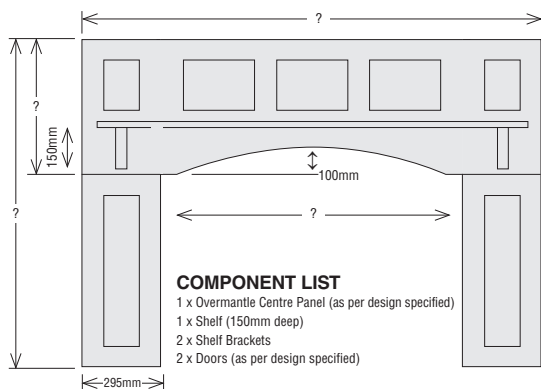

All canopies are supplied with a matching base board with an overall depth of 400mm

Dimensions	Large Canopy	Small Canopy
Overall Height	450mm	450mm
Overall Width*	1035mm	710mm
Minimum Width**	800mm	600mm

OVERMANTLES

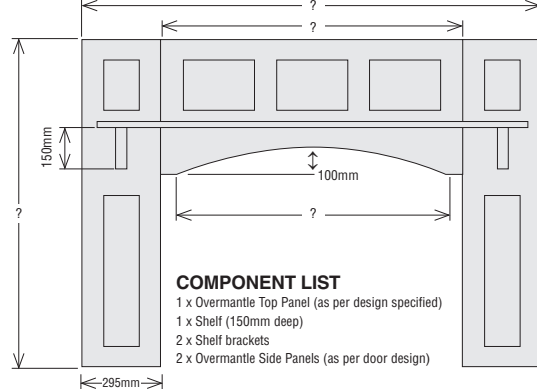

Supplied unassembled

24) OVERMANTLE A

COMPONENT LIST
 1 x Overmantle Centre Panel (as per design specified)
 1 x Shelf (150mm deep)
 2 x Shelf Brackets
 2 x Doors (as per design specified)

25) OVERMANTLE B

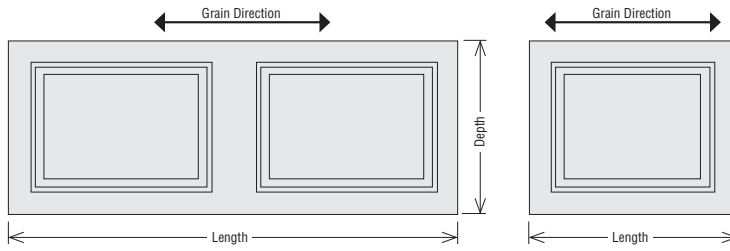

COMPONENT LIST
 1 x Overmantle Top Panel (as per design specified)
 1 x Shelf (150mm deep)
 2 x Shelf brackets
 2 x Overmantle Side Panels (as per door design)

GUIDELINES FOR PANEL PROFILES

Drawings A and B represent the two methods of manufacturing over mantles with the fixed dimensions shown. The measurements indicated by question marks (?) can be altered to suit your order requirements as can the design. When ordering, please provide full details of door design, dimensions of all components and clearly indicate any profiled edges. A technical drawing and quotation will be sent for customer approval before manufacture. Price based on 1300mm high x 1600mm wide. Larger sizes available. Price on application.

ACCESSORIES CONTINUED

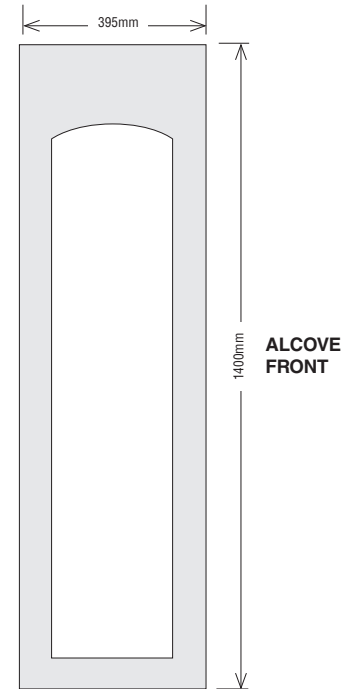

26) BATH PANEL

GUIDELINES FOR ORDERING BATH PANELS

Bath panels can be manufactured to match any of our available door designs but will be produced with square edges all round. Please supply all dimensions when ordering and always use the terms length and depth as this will prevent confusion over grain direction. Pay particular attention to the length dimension which will determine the grain direction where applicable.

27) ALCOVE

GUIDELINES FOR ALCOVES

The standard size for an Alcove front is 1400mm x 395mm. Non-Standard sizes can also be supplied and will be priced on application.

28) HEADBOARDS

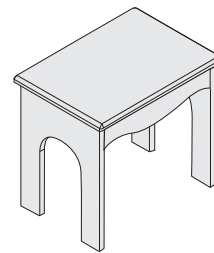

GUIDELINES FOR ORDERING HEADBOARDS

For unusual shaped panels it is advisable to send us a sketch with as much detail as possible. We will then supply you with a technical drawing which will give full details of how the item will be manufactured.

29) BEDROOM STOOL

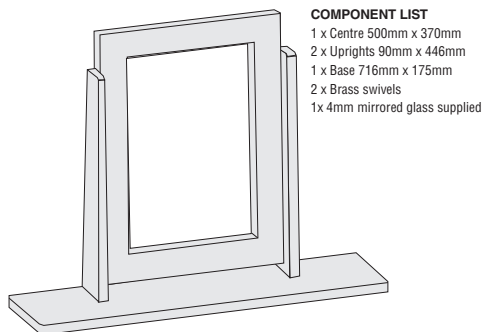

Supplied unassembled

MIRRORS

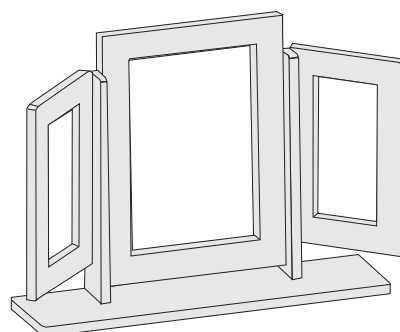

Supplied unassembled

30) SINGLE MIRROR

COMPONENT LIST
 1 x Centre 500mm x 370mm
 2 x Uprights 90mm x 446mm
 1 x Base 716mm x 175mm
 2 x Brass swivels
 1 x 4mm mirrored glass supplied

31) TRIPLE MIRROR

COMPONENT LIST
 1 x Centre 500mm x 370mm
 2 x Uprights 90mm x 446mm
 1 x Base 716mm x 175mm
 2 x Wings x 2 370 x 400mm
 2 x Brass swivels
 4 x Brass hinges
 3 x 4mm mirrored glass supplied

GUIDELINES FOR MIRRORS

Mirrors are supplied glazed and flat packed complete with all necessary fittings and assembly instructions.

WINE RACK FASCIAS

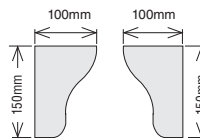

39) TRADITIONAL WINE RACK

40) MODERN WINE RACK

GUIDELINES FOR WINE RACKS

Gloss wine racks are available in modern design only. Non-standard sizes are available and will be priced on application.

41) SHELF BRACKETS

Shelf brackets are supplied as a pair.

GUIDELINES FOR DRILLING

This example shows a door drilled with four left hand hinge holes. The following abbreviations are used on order acknowledgements to indicate drilling specifications.

- T - drilled from top down
- B - drilled from bottom up
- C - drilled in the centre
- LHH - Left hand hinges
- RHH - Right hand hinges
- THH - top hung hinges

Hinge holes are supplied at £0.75 per hole. Normal discounts do not apply.

When ordering hinging on Bilbao/Miami, Eclipse and Florida/Lisbon designs please advise if for base or wall units as this will affect handing.

Hinge holes are drilled 35mm diameter and 5mm from the edge of the door and are 12.5mm deep.

Door Size	Hinge Holes	Processing Format
Up to 894	2	100 T - 100 B
895 - 1499	3	100 T - C - 100 B
1500 and above	4	100/300 T - 100/300 B

TOPX ACRYLIC SURFACES

All of our acrylic colours (with the exception of Metallic Blue) are supplied with the new harder wearing TopX surface finish.

The surface of TopX is covered with a protective film up to the time of use, which means up to the point of everyday use in the kitchen or bathroom. The protective film must stay on the surface during processing and installation. After removal of the film, the surface is ready for daily use. No additional polishing is necessary.

For general cleaning TopX, normally available cleaning agents can be used. For special care of the surface, we recommend using VuPlex®.

Important: the use of abrasive effect cleaning agents and scouring agents can cause damage and should be avoided. The surface of TopX is, however, resistant to many chemicals. In case of doubt, suitability and resistance should be checked on a sample surface.

Benefits of the new TopX surface finish

- Greatly improved scratch resistance, steel wool proven
- No polishing necessary after removal of the protective film
- Increased UV stability
- High chemical resistance

VUPLEX KIT

PRODUCT CARE, GUARANTEE & REPLACEMENT POLICY

Doors and accessories from the Infinity and deNovo ranges in the NEY Door Collection carry a guarantee of 5 years from date of invoice, against defects in materials only.

Doors should be cleaned using a damp cloth using a very mild solution of water and household detergent (non-abrasive) with a minimum amount of moisture. No water should be left on the surface for any length of time and should be dried using a soft, clean cloth.

NEY will not accept any liability for damage caused by excessive use of detergents or cleaning materials containing solvents.

To prevent heat damage we advise the following precautions :-

- i. Extractors are always used above working hobs.
- ii. Heat deflectors should be fitted around Built-in/under ovens and ranges to minimise heat emissions.
- iii. Not positioning kettles, toasters etc. in locations where the heat or steam they emit will over a period of time damage wrapped products.

If storing product for any period of time we recommend you do so flat in a dry environment. NEY cannot be held responsible if product is stored or installed in a newly plastered or damp environment.

Where a product is damaged or sub-standard when receiving delivery, it is the Buyers responsibility to sign the delivery documents

as damaged. If damaged goods are received, in order to speed the replacement process, the Sales Office require photographic evidence of the damage along with a list of items and a copy of the delivery document which states the damage. Chargeable replacements will be ordered and manufactured and a request will be sent to the Area Sales Representative to arrange collection and credit of the faulty product. Any faulty doors should not be used, i.e. drilled or fitted, without prior agreement with Ney Ltd.

If product has already been installed it is reasonable to assume that they met with the Buyers quality standards before installation. We cannot be held responsible for faults if not informed prior to installation.

If product has been installed and a fault found, NEY will issue a chargeable replacement, the Area Sales Representative will then endeavour to collect the goods for inspection and credit. NEY request that the Buyer, where possible, forward photographic evidence of the fault and details of the original invoice for NEY to process the claim.

Please note that in the event of a proven manufacturing defect, NEY's liability will not exceed the value of the defective product and accept no liability for any consequential loss, loss of profits, third party claims or refitting charges.

HANDLING AND STORAGE INSTRUCTIONS:

Our doors are heavy and can be damaged if they are not handled carefully. Do not drag doors or slide them across one another, as this can result in chipping damage or scratching. Handling damage is not considered a factory defect.

Doors must be stored in a dry, well ventilated area in an enclosed building. Do not deliver doors to the job site until concrete floors, foundations and plastering is completed and fully dry. Never store doors outside, exposed to the elements.

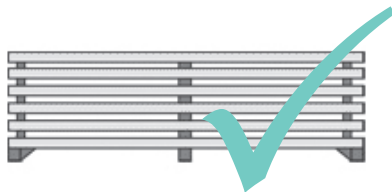

Do not subject doors to extremes of heat, dryness or humidity. Temperature should not exceed 40° C.

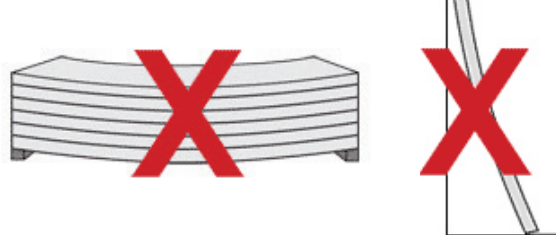

Doors should be stored flat on a level surface in a dry, ventilated area to prevent bowing. It is very important to support the centre of the doors to prevent them from sagging in the middle. Do not lean doors against the wall.

Do

Don't

We are constantly improving our product range and whilst we will endeavour to keep you informed, we also reserve the right to amend colours, specification or products without prior notification.
